

HUMBOLDT STATE UNIVERSITY

announces a program for American Indian students interested in computer sciences:

Coalition for American Indians in Computing (CAIC)

CAIC is a program in the Humboldt State University Computing Science Department that prepares Native American students for employment opportunities in Tribal communities.

Summer 2007 (July 8 through July 27): HSU-CAIC summer experience for American Indian high school and community college students:

- ▲ Fun 3 week on campus program
- ▲ Pre-college academic training
- ▲ Career planning
- ▲ Tribal internships
- ▲ Orientation to specialized HSU student support services and programs
- ▲ Free room and board plus money to cover travel

For Native American college freshmen or transfer students:

- ▲ If you plan to work in Tribal community enterprises, management, casinos, education programs, accounting, businesses, then consider applying to Humboldt State University CAIC program.
- ▲ HSU-CAIC will assist you with applying for financial aid, tutoring, mentors, course advising, activities, access to computer labs, and more....
- ▲ The HSU program has openings for you starting Fall Semester 2007.

The **HSU Coalition for American Indians in Computing (CAIC)** is building a long-term partnership between the tribal communities and the HSU Computing Science department. We are actively recruiting American Indian students who are interested in computer science (CS) and computer information systems (CIS) programs.

If you are a self-identified Native American student and want to explore the world of computers and high technology then you are eligible to apply.

HSU-CAIC partners for your success include:

- ▲ HSU Computing Science Department
- ▲ Northern California tribal leaders and communities
- ▲ Northern California tribes Information Technology Directors
- ▲ Northern California Indian Development Council (NCIDC)
- ▲ Indian Teacher and Educational Personnel Program (ITEPP)
- ▲ Center for Indian Community Development (CICD)
- ▲ Indian Natural Resource, Science & Engineering Program (INRSEP)

IMPORTANT CAIC CONTACTS:

Name	Role	email address	Phone
Guy Alain-Amoussou	Director CAIC	ga7001@humboldt.edu	(707) 826.3380
Ann Burroughs	Faculty CAIC	aeb3@humboldt.edu	(707) 826.3337
Chip Dixon	Faculty CAIC	cd3@humboldt.edu	(707) 826.3530
Suzanne Burcell	Director ITEPP	smb7001@humboldt.edu	(707) 826.5195
Jacquelyn Bolman	Director INRSEP	jrb96@humboldt.edu	(707) 826.4994
Adrienne Colegrove-Raymond	Director SOSAP	abc1@humboldt.edu	(707) 826.4791
Zo Devine	Asst. Director CICD	esd2@humboldt.edu	(707) 826.5251
André Cramblit	Operations Dir, NCIDC	andrekar@ncidc.org	(707) 445.8451

The CAIC Project has been designed to integrate traditional Tribal values into the higher education system. The purpose is to promote individual development of American Indian students who are trained in Computer and Information Sciences or related fields of study. This will be achieved by incorporating culturally appropriate teaching methodologies, topics and sponsoring internships within Native communities. CAIC graduates will be well prepared to function in and combine the dual worlds of a high technology society and their own unique tribal heritage. These students will be a valuable resource to the ongoing development of Native American Tribes, and Communities and will support tribal sovereignty and self-determination.

Presented by Humboldt State University in collaboration with Northern California Tribal Communities and the National Science Foundation
